GET A PERFECT OUCH-FREE POUT

Tingly, lipstick-style lip plumpers are great, but if you want to give a serious perk to your pout, needles have been the only option – until now. The new Pulsar Pout treatment is non-invasive, needle-free and uses intense pulsed light lasers to stimulate collagen and perk up your lips. Best of all, it promises results in just 10 minutes. It costs £50 and is available at Beauty Essence in London EC4 (above), 020 7394 9081, and salons nationwide; call 01433 659900 for details.
