PULSAR IPL MAKES LIGHT WORK OF HEALTHCARE COMMISSION TRAINING FOR SALON MANAGERS

The Pulsar Core of Knowledge training will make the healthcare commission registration a far easier, quicker and cheaper process than current procedures available in the professional beauty industry. Through a partnership with the Healthcare Commission Authority, the registration process is broken down into manageable steps for salon managers using revenue-share based Pulsar IPL machines. Paperwork is handled by Pulsar management, and the 1 day Core of Knowledge training course led by Laser Protection Advisor, Steve Hill, completes the process.

Having just completed the registration process, New Business Development manager and Pulsar trainer, Sue Scholes, has been awarded the Pulsar **Core of Knowledge** certificate. With over 4 years of experience in IPL, consulting over 350 salons Sue believes the Pulsar Healthcare registration process is almost 50% quicker with Pulsar. Sue says, "Pulsar take care of all the paperwork at no charge, and guides you step by step until you are fully registered. Salon managers have procrastinated in taking on machines such as Pulsar due to the Healthcare Commission regulation but this process totally eliminates any pre-conceived ideas about the workload and effort involved".

The charges associated with Healthcare Commission registration should be considered an investment if considering IPL. Sue says "By doing just one day's worth of Pulsar treatments, many salons find that the revenue-share based income will pay for Healthcare Commission costs in addition to covering one month of salon overhead charges. The brand's incredible media campaign has contributed to some salons fully booked for 3 - 4 days per month generating a £3000-4000 turnover".

For further enquiries please call Pulsar IPL please call: 01433 659900.
